

## Chamonix, Queen of the Alpes

... and the Aravis pass.

Departure at 08h00, through the motorway, we head for **Annecy**, wonderfully situated at the lake side. We continue alongside the lake to reach **Veyrier**, then **Thones**, characterised by a bulb shaped steeple. After we join La Clusaz, a famous winter sports station. The winding road takes us to the **Aravis pass** where stands a little chapel dedicated to ST Anne. Stop and free time sightseeing.

the road then snakes between the chalets of **Giettaz**, and leads after to the **Aronidine gorges**. Once in Flumet, we will drive alongside the tumultuous Arly to join **Megeve** "La mondaine", then **St Gervais** and finally we reach the queen of the Alpes, **Chamonix**.

Lunch in chamonix, and **free time till 17h30** to admire the different panoramic viewpoints accessible either by rail or cable car.
